Dear Mr. Curry,

Thank you for contacting Remington Country. We will need the serial numbers located on the left-hand side of the receiver in order to determine if they have ever been involved in a recall.

Your Model may have a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

[http://www.remington.com/Safety\\_Modification\\_Program/remington\\_safety.htm](http://www.remington.com/Safety_Modification_Program/remington_safety.htm)

I have heard that there is a recall on remington 700 rifles. I have two both made before 1985 can you tell me if these would be included. I can't seem to find anything about this on your web site.
