Dear Mr. Willis,
Thank you for contacting Remington Country. Your Model 700 was produced around 1978. Your model has not been involved in a recall.

Your model would have a bolt-lock safety, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

http://www.remington.com/safety_Modification_Program/remington_safety.htm

If you will complete the form located through the link below we will forward to you a copy of the original owner's manual.

<http://www.remington.com/whatsnew/readroom.htm>

You can also find owner's manuals for some of our current models on-line in our Reading Room in the "What's New" Section.

would like to know what year this rifle was manufactured, if there's anything significant about it's history, weren't there upgrades to the safety recommended, and how do I get a copy of the original owner's manual? Thanks for your assistance, Jim Willis (I wrote about a month ago and no one responded).
