Dear James:

We suggest taking or sending your firearm to a Remington Authorized Repair Center or our factory for evaluation as either of these facilities will be able to convert your gun from the bolt lock style safety to the non-bolt lock style.

You can locate your nearest repair center by visiting the Repair Information Center in our Support Section and selecting your model and state:

This is an old Remington 700 It has the old style that you have to put it on fire to unload it. Remington use to have a kit to change it over do you still have this kit. Or where can I get it. James Kelly

Dear Jim:

Thank you for visiting Remington Country. We do not carry any parts to convert the safety mechanism in our rifles. We would suggest that you contact your dealer about purchasing the Remington Bolt Disassembly tool.

Customer (James Kelly) - 02/09/2003 12:06 PM

Do you still have the conversion kits for the old 700 to change the safety? Do you have the tool to take the bolts apart and how can I get them?

Jim Kelly
