Thank you for contacting Remington Country. Your Model 700 was manufactured around 1971. If it does not have a hinged floorplate or detachable magazine, it is an ADL. To view the current Model 700 ADL, go to:

<http://www.remington.com/firearms/centerfire/700adl.htm>

Your rifle was originally installed with a bolt lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

[http://www.remington.com/safety\\_modification\\_program/remington\\_safety.htm](http://www.remington.com/safety_modification_program/remington_safety.htm)
