Thank you for contacting Remington Country. Your rifle may have been originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

I recently read something on your website regarding a factory recall/replacement of bolt locks on model 721 rifles and would like to know more, so that I can take advantage of this offer after hunting season.

thanks  
Larry Bybee
