Thank you for contacting Remington Country. Your Model 700 was produced in 1979. Your firearm has not been involved in a recall. Your rifle was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. The serial number from the rifle is A6874388. I would love to know if there is any recall information that I should be aware of. Thanks for your response!
