

Safety failure

Discussion Thread

Response (Chris)
Dear Mr. Carlisle,

1/7/2004 3:13:22 PM

According to the serial number, your Model 700 was produced around 1973. Your firearm has not been involved in a recall. Your rifle was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

http://www.remington.com/Safety_Modification_Program/remington_safety.htm

Customer (Paul Carlisle)
The Serial number is 6624901
