

Remington Model 700 (misfires)

Discussion Thread

Response (Chris)
Dear Mr. Hobbs,

2/19/2004 2:42:08 PM

Thank you for contacting Remington Country. According to the serial number, your rifle was produced in 1974. Your firearm has not been involved in a recall. Your rifle was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

http://www.remington.com/safety_Modification_Program/remington_safety.htm

If in the US, we recommend taking/shipping the firearm to one of the following Remington Premier Repair Centers for inspection.

Send to Bolsa if you live in the following states: CA, NV, UT, AZ
Bolsa Gunsmithing
7404 Bolsa Ave.
Westminster, CA 92683
Phone: 714-894-9100
Fax: 714-898-9164

Customer (Richard Hobbs)

2/16/2004 8:13:00 PM

Good Evening,

I own a Model 700 that was purchased in 1977 (approx) it has been in my family ever since. This is a great gun that has discharged when safety was moved from on to off position. It has also fired when bolt was closed seating another round. Rifle has had less than 200 rounds through it. We are a family of satisfied Remington users and would like some direction on how to rectify this problem. Any help or direction you can offer would be greatly appreciated.

Sincerely,
Richard Hobbs
