Dear Mr. Ramp,

Thank you for contacting Remington Country. According to the serial number you provided, your Model 700 was produced in 1994. Your rifle has not been recalled and does not have the bolt lock.

If you were to ever need the firearm repaired or inspected, we recommend our Remington Authorized Repair Centers which can be found at:

<http://www.remington.com/repairsvc/modelselection.asp>

The serial number of my model 700 is c6855661. Can you tell me if it was made prior to March 1982 or what the date of manufacture was?

Have there been any other safety issues other than the bolt lock mechanism that I should be aware of?
