Response (Chris)
Dear Mr. Barter,

7/28/2004 10:31:30 AM

Thank you for contacting Remington Country. The Model 700 has a sear blocked safety. You cannot put it on safe if the firing pin is not in the cocked position and the sear is not down.

If this is not the case, we recommend taking/shipping the firearm to one of the following Remington Premier Repair Centers for inspection.

Send to J & G if you live in the following states: CA, NV, UT, AZ

Customer (Joseph Barter) 7/26/2004 8:11:52 PM
I just bought a Remington Model 700 270. I have not loaded but I notice
that I cannot engage the safety while the bolt is engaged and the rifle is
unloaded. Will I have to disengage the the bolt before I can put the
safety on or is something wrong with the rifle.
