Thank you for your inquiry. The Canadian Repair Centers can remove the bolt-lock. The rebate for Remington products associated with this is only offered in the US. Contact the repair center for a quote to modify your Model 660. They will also inspect it for a trigger recall that your 660 would have been included in.

Customer (Ron Belt) 9/19/2004 10:19:14 AM I have just purchased a Model 660 which has not had the bolt lock safety modified. Is your the recall program still ongoing and can I have this done in Canada? I live in Calgary, AB. Thank you for your help

Ron
