Thank you for contacting Remington Country. Your Model 660 was produced in 1969 and should be inspected for a trigger recall. We suggest taking or sending your firearm to a Remington Authorized Repair Center or our factory for evaluation.

You can locate your nearest repair center and instructions by visiting the Repair Information Center in our Support Section and selecting your model and state:

<http://www.remington.com/repairsvc/Modelselection.asp>

My 660 has never been safety modified. Is this recall still available? If it is , I would need shipping instructions. Thank You.
