Thank you for your inquiry. We did not recall the Model 700 because it is not defective. For information on the program that we offered please click on the link below:

[http://www.remington.com/Safety\\_Modification\\_Program/remington\\_safety.htm](http://www.remington.com/Safety_Modification_Program/remington_safety.htm)

This program only included models produced before 1982.

i read a cbs report stating that remington 700 rifles will sometimes go off when the weapon's safty is on safe then moved to the fire position. did remington ever fix this problem. i really want to buy m700 adl in 308 but i am worried about the trigger going off without me wanting it to. thi is my second time asking so can you please get back to me asap.  
thanks!!!!  
mike
