Dear Rob

We do have a new authorized repair center in ID. Please click on the link below for the safety modification information you have requested. We hope this information is helpful and we appreciate your loyal support of Remington products.

Hello,

My rifle falls under the safety modification program and I am planning to send it to the factory for repair. I live in Idaho and there is not a Authorized Repair Facility near me. I inherited this weapon and after shooting it for the first time, I have found that it is not extracting the spent cases. Can you possibly give me a ballpark estimate on how much it would cost to have the factory gunsmiths look at this problem for me?

Thanks,

Rob Lillis
