Dear Mr. Bandy, Thank you for visiting Remington Country and your continued use of our Remington products. We no longer carry the sights for the Model 600. Please contact one of our obsolete parts dealers to find the part you need. You may view these dealers by visiting the link here: <http://www.remington.com/support/repairsvc/others.htm>

Please visit the following link for some important safety information regarding your Model 600.

I purchased a older 600 model and while sighting in the rear sight broke. It was the adjustable piece not the base. Can i order just that part or do you know of a better peep sight that is available? It was the 600 in 308 win caliber. don't know specifics
