Thank you for visiting Remington Country! We certainly appreciate you taking the time to write in with your question. The Custom Shop would be able to build your firearm without the ISS in it. We have phased these out of our production guns as of this year.

Should you have additional questions, please feel free to contact our Consumer Services Department at 800-243-9700, 9:00 am - 5:00 pm, EST, Monday through Friday.

I have been looking to get a custom shop 700 rifle and the time might be right. What I want to know is if I can have it build WITHOUT the bolt safety mechanism (green keys) that has shown up in recent years. Appreciate your help.
