Dear Ray:

We have not had any issues with the safety's on our Model 700 rifles since 1982. We are updating the safety's to be more modern on our Model 700 rifles that were manufactured before 1982. We hope that this is helpful to you. If you would like to read more about the bolt lock modification program, you may view the link below:

http://www.remington.com/Safety_Modification_Program/remington_safety.asp

Feel confident that there are no safety issues with the Model 700 SPS firearms.
