Thank you for visiting Remington Country! We certainly appreciate you taking the time to write in with your question. There is not a recall on any 700; however, we do have a safety modification program in progress for some models prior to 1982. Participating in this program is strictly optional. For more information about this, please click on the link below for more detailed information about this program:

Customer (Keith Billado) 9/19/2005 5:52:00 AM Good morning; recently a customer brought a model 700 into my shop to have a scope mounted and he mentioned something about a recall on the model 700. Is there a recallon the model 700?
