Dear Mr. Martin,

Thank you for your inquiry. By the serial number, you have a 2003 Shot Show Special Model 700. The total produced is not available for release and we do not set a suggested retail on special runs.

This model has a walnut stock.

If you will complete the form located through the link below we will forward to you a copy of the original owner's manual.

<http://www.remington.com/whatsnew/readroom.htm>

You can also find owner's manuals for some of our current models on-line in our Reading Room in the "What's New" Section.

The ISS safety key can be ordered direct from the factory. It retails for \$3 plus shipping and tax. We request that you forward your order by fax or mail to the following, with a clear copy of your valid driver's license in order to ensure that we are sending the key to an adult.

Remington Arms, Inc
PO Box 700
Madison, NC 27025

fax: 336-548-7801

HI - I just purchased a preowned rifle with the subject description. The Serial Number of this rifle is S6473738. I just spent over a half hour on your web sight to see if I could learn more about this rifle - I could not find anything. I'd like to find out everything I can. Can you help? Things like : How many made? Original MSRP? When were they made? Source of articles written about this rifle. What kind of wood was used for the stock? Plus any other info that may be of interest to me as the new owner. I do not have a manual or a "key" for the Bolt lock. Can you help me locate these items? Thanks., Ron Martin, 24404 249th Ave. SE, Maple Valley, WA 98038
