Thank you for your inquiry. By the serial number, your 700 was produced in 1974.

Your rifle was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

[http://www.remington.com/safety\\_Modification\\_Program/remington\\_safety.htm](http://www.remington.com/safety_Modification_Program/remington_safety.htm)

You can view the history on this model at:

<http://www.remington.com/aboutus/gunhistory.htm>

Due to the many variables involved with valuation, we would encourage you to refer to the many publications that are available on the subject of gun values or have it appraised by a collector. Many of these books are available through public libraries or local bookstores. For your convenience we have provided a listing of the more popular books:
