Thank you for contacting Remington Country. Your Model 700 was produced in 1973. Your firearm has not been involved in a recall. Your rifle was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

http://www.remington.com/Safety_Modification_Program/remington_safety.htm

I have a safety issue. When i pushed the safety to the fire position, the gun discharged. I understand that you are recalling the below model and repairing the safety. my question is where do i send it and how do i send it...please provide me with all information to return the gun to you...
