Thank you for contacting Remington Country. Your Model 700 was produced in 1966. Your firearm has not been involved in a recall. Your rifle was originally installed with a bolt-lock, which means you have to put the safety switch on fire before you can open the bolt. We are offering a conversion at a special price if you would like your firearm converted, so that you can open the bolt at anytime with the safety on safe. To view more details regarding this modification, go to:

I seen a recall on some older Remington 700 is this true and how can I tell if I have one?

And how can I find when this was made?
