Dear Adam:

Thank you for visiting Remington Country. According to the information that you provided, your Remington Model 700 was produced in or around 1977. We do not have production totals for specific calibers. The Model 700 was introduced in 1962 and is still in production today. This model is widely recognized as the "most accurate out of the box production rifle" on the market today. We would suggest that you review the information found on our homepage in the Safety Center entitled "Bolt Action Safety Message: Safety Modification Program for certain pre-1982 rifles".

I just recently inherited a Model 700 .270 Win and was wanting to know its age. Just ahead of "Remington Model 700" it reads "A6484385". I also have a Model 10 shotgun. I would like to know about it as well, but don't have it with me presently to view. I'll have to get back to you on it. Thanks for your help.

Adam Clay.
