Dear Larry:

Thank you for visiting Remington Country. According to the information that you provided, your Remington Model 700 was produced in or around 1968. We do not have production totals for specific calibers. The Model 700 was introduced in 1962 and is still in production today. This model is widely recognized as the "most accurate out of the box production rifle" on the market today. We would suggest that you review the information found on our homepage in the Safety Center entitled "Bolt Action Safety Message: Safety Modification Program for certain pre-1982 rifles".

I recently acquired a Remington 700 in .243 with a varmint barrel. Can you tell me the date of manufacture for this rifle? See serial number below.

Thank you.
