Dear Mr. Jurgensmeyer,

Thank you for your patience. Your rifle was produced in 1980 and it has a bolt lock which is what you've described.

We do not send parts out for the modification but just modify the parts in your current firearm. You can send it to any of the Remington Authorized Repair Centers listed at the following section of our site.

http://www.remington.com/support/repair_services/

I have now become aware of your safety modification program. Can I have the replacement part sent to me in lieu of returning the whole rifle to NY?
