Dear Kelly,

There has not been a re-call on a barrel for the 700. The only thing we have for the 700 is a Safety Modification Program, see the link below:

http://www.remington.com/safety/safety_center/safety_modification_program/

If you have further questions you can call us at 1-800-243-9700, 9-5 EST.

Thank you for answering my question about when my gun was made! My other question is there a recall on the barrels on this rifle? My reference number from the previous question is 060130-000089. Thank you for your help.
