Subject: Updated Development Plan and other issues

Jay:

Attached is a new 2002 firearms plan. I needed to come up with another \$25k so I delayed the New Bolt Action Rifle by 3 months.

I am leaving for Philadelphia this morning to attend the ASTM lock meeting. This is a voting meeting. Will be back in the office Friday.

Eventhough we are over budget by \$25k, my recommendation is to complete the patent process for the NAS undercarriage. Whether or not we ship NAS this is an important technology that we should not let anyone have easily.

I will have my cell phone with me while in Philadelphia. (270) 307-0033
