Subject: RE: Rifle for Kodiak Island

Hey Derek,

I have a Model 700 XCR (Xtreme Conditions Rifle) in house, chambered in 7mm Rem Mag which would be perfect for the Sitka blacktail and also pleasurable to shoot! In fact, Diana Rupp and I are both toting this chambering. Our entire group will be field-testing the XCR rifle because Kodiak Island weather conditions make it an ideal test.

If you are okay with the 7mm Rem Mag, I will get it shipped this week along with a sampling of ammo.

I am looking forward to sharing "hunting camp" with you again!

Linda

Hi Linda:

I'm open to carrying whatever you want me to shoot (except 300 Ultra Mag) if you have no preference my choice would be any stainless, titanium, or Teflon-coated synthetic stock model from .243 to 7mm SA Ultra Mag.

My only other non-military rifle is chambered for .30-06, so I would prefer a caliber other than that, just in case I fall in love with whatever you send out.

This is going to be a great hunt. I can't wait. Thanks.

Regards,

Derek McDonald
