Shanda -

My recommendation is to schedule these for September in lieu of the M7 Syn where customer orders did not materialize.

However, this may be too aggressive.

S&K would need to be capable. Ilion needs to establish BOMs; Routes; Tooling etc.

I will bring these issues up as well as other concerns at our morning meeting.

Thanks

Tom

I forgot a few Seven CDL skus:

| | |
|-------|-----|
| 26361 | 500 |
| 26363 | 100 |
| 26365 | 100 |
| 26367 | 500 |
| 26369 | 350 |
| 27291 | 250 |
| 27295 | 250 |
| 27297 | 250 |

These total 2300. Plus the below equals 5450.

Shanda -

Would you have this information available?

Also what is the forecast for M/7 CDL by SKU?

Thanks

Tom

Shanda,

We need a spring gun forecast as soon as you can get it to us. There are issues around fluting rates, HS stock requirements, XR100 & Model Seven volumes and SPL triggers that we need to plan around. Also what about the small bore BDL's? Are they still in the program, or are we putting in small bore CDL's?

John
