REMINGTON ARMS COMPANY, INC.

Product Team Meeting Agenda
December 11th, 2003 Ilion Meeting (7:30 a.m.)

Future Meetings

Determine Dates for first six months of 2004 at this meeting

Future Important Dates

Feb 12-15, 2004 SHOT Show (Las Vegas, NV)

Business Review

Jay Bunting to provide overview of current business environment

ILION BASED SHOTGUN PRODUCTS

2002 New Shotgun Product

Model 332

OBJECTIVE: Establish a legitimate presence in the O/U market ACTION: Ilion to report on progress of velocity and quality improvement initiatives (Greater throughput, bring engraving in house, wood quality, etc) and production levels to date. Quality concerns that were on the last agenda that Trull would like a report on status of are:

- Bluing salt bleedout around the monoblock/barrel interface and vent rib posts.
- Rust coming out of edge of barrel at breech and between the barrels at the monoblock.
- · Loosening of forends when shot 25-50 rounds.
- · Side rib seam still inconsistent at braze.
- Wood still too dark.
- Failure to fire on top barrel.
- NEW ISSUE SINCE LAST MEETING: Shane Naylor's gun began shooting open at 3k rounds. It is the understanding of Marketing that Ilion responded that this was typical of what we would see on guns built to print.

ACTION: Need clarification of how we took guns to 10k rounds in T&P endurance test without shooting open, but we can expect current production guns to begin shooting open around 3k rounds.

2004 New Shotgun Product

Barrel Porting

OBJECTIVE: Invigorate the XBL business with something new that can be pitched as a special barrel program. Target date for announcement is November Sales Meeting. Catalog barrels to be ported: Target, Turkey and Deer. First RAMAC to develop is 4624 (10 years of overstock).

ACTION: Where does this project stand from Ilion's perspective?

General New Product Discussion

OBJECTIVE: Ship new product on time

ACTION: Ilion to provide status of any 2004 new shotgun products that have not been released in production yet. From my notes, these products are:

- 9583 M1100 Sporting 28/27
- 9549 M1100 Sporting 410/27
- 6457 M870 SPS FR/CL 20 GA
- 4455 M1100 Sporting XBL 28/27

2005 New Shotgun Product

 2005 New Shotgun Product OBJECTIVE: New Product

ACTION: Discussion of prospective new strongun programs and strategies for 2005.

Ilion Quality - Shotguns

Shotgun POI

OBJECTIVE: Conformance to SAAMI spec

ACTION: Ilion to provide status of this project. Priority of shotguns in which to incorporate these changes first:

- 1. All 1100 Target, 1100 Classic Field and Synthetic
- 2, 11-87 Premier and SP/SPS
- 3. 870 Wingmaster and SPS
- 4. 870 Express
- 5. SP-10
- 11-87 Super Mag

OBJECTIVE: Determine necessary changes to make this product to the performance requirements as originally specified.

Action: Engineering to provide update on design recommendations and timeline for implementation. What testing needs to be done and when can we expect to make the transition in production?

ILION BASED GENERAL TOPICS

- Elimination of ISS on common fire control and Model 700, Model 7
 ACTION: A schedule for phase in was due from Ilion on 9/30. No schedule has been received to date. Ilion needs to insure that this schedule is buttoned up prior to this meeting. We will review the schedule on the 11th.
- 3" Chambers in 20 ga deer barrels (NPP 2003-78)
 OBJECTIVE: Uniformity across 20 gauge slug offerings.
 ACTION: Update on manufacturing plan and timeline. Can we roll 1100 FR 20 GA as a Magnum gun without changing the RAMAC?
- R3 Pad on Wood Stocks
 OBJECTIVE: Product enhancement
 Action: Ilion to advise of roll out status for premium guns.
- Styrofoam Insert in Gun Boxes
 OBJECTIVE Product enhancement

C:\Program File CD\CrackerLoaderREM\REMEmail\rawblob\20060108074908A00010431.doc Page 2 6/12/2006

Action: Perniciaro to advise of what progress Dan Shumway and Purchasing have made with respect to contacting current and prospective vendors to address this issue per discussions at last PTM. Trull recommends that we take a took at what Thompson Center is doing from a foam insert perspective on the Omega product.

Salt Bleed Out

OBJECTIVE: Quality Improvement

We continue to see bluing salt bleed out all too frequently on both our shotguns and our rifles. Other manufacturers do not appear to have the same degree of problems with this issue.

ACTION: How do we get our hands around this problem and resolve it once and for all?

ILION BASED RIFLE PRODUCTS 2004 New Rifles

Model 700 CDL (Classic Deluxe)

NPP-2004-24 RAMAC\$(7007,7015,7011,7017,7047,7049,7051,7053)

OBJECTIVE: New Product

Action: Engineering should have samples to show at this meeting. Need to insure that we are process capable for early Q1 production.

Model 700 BDL SYN DEJ#8 (New Decorating Process)

NPP-2003-88 RAMAC 27507

OBJECTIVE: New Product

Action: Ilion to advise on test status of initial samples and to confirm that this vendor is capable of delivering a quality product on time and at agreed upon pricing.

Model Seven Synthetic Stock

OBJECTIVE: New Product

Action: Ilion to advise of production status off new tool. Another item we must insure Q1 production.

2005 Prospective Ilion New Rifle Programs

2005 New Products

OBJECTIVE: New Product

Action: Trull to lead group in discussion about prospective new product concepts for 2005.

Ilion Engineering Topics - Rifles

Alternative Metal Finish for Stainless Rifles

OBJECTIVE: Product Enhancement

Action: Report on cost and properties of various options for coatings were due on 9/30. No report has been presented to date. Ilion should be prepared to advise of status.

Røller Burnish for Rifle Chambers

OBJECTIVE: Product Enhancement

Engineering reported at last meeting that this process is being held up due to chamber eccentricity issues. Bulk of problem appears to rest with current CF heading process at llion.

C:\Program File\CD\CrackerLoaderREM\REMEmail\rawblob\20060108074908A00010431.doc Page 3 6/12/2006

Action: Engineering to advise on progress of implementing this process on CF rifles. Have eccentricity and processing concerns been corrected? Are we still on track to implement in February of 2004?

Ilion Quality Issues - Rifles

 Bolt-Action Rifle "Lays Left" Issue OBJECTIVE: Quality Issue

Action: Engineering & Quality to discuss progress since last meeting.

Model 700/Seven Trigger Pull Weights
 OBJECTIVE: Quality Issue
 Sales and Marketing are receiving a great deal of feed back to

Sales and Marketing are receiving a great deal of feed back from customers and consumers that we are losing sales at a devastating level to the Savage Accutrigger offerings.

Action: Ilion and R&D to collectively advise of test status of the fluted firing pin design, ISS removal, and how and when we can expect to see trigger pull weights to return to a reasonable level. Today, they are excessive. Also review Mayfield's ability to address this issue on the M710 and how that could translate into an improvement for the M700. Also review status of bolt-action maintenance review program.

Model 40-X Triggers in Varmint/Police Rifles.

OBJECTIVE: Product enhancement

Action: Test rifles are on hand at E-Town. R&D to advise of status of testing on this topic. Testing was scheduled to be complete in December.

 Centerfire Rifle Chamber Specs – Ilion reamers as compared to SAAMI OBJECTIVE: Quality Issue

Action: Perniciaro/Diaz to advise if proposals will be made to SAAMI to add freebore to cartridge drawings determined to be an issue from last meeting.

R&D TOPICS

E-Town Development Topics

 Model 597 Performance Improvement OBJECTIVE Performance Improvement of 597 Action: Diaz to advise of redesign efforts.

Model 7600 223 Rem

OBJECTIVE: New Product

Action: Diaz to update on DAT status. Guns were received from Ilion. Advise of anticipated completion date.

 Remington Mohawk 22 Program OBJECTIVE: New Product

Action: Diaz to advise of status on low cost design status.

 Sourced Muzzleloader Design QBJECTIVE: New Product

C:\Program Files\\CD\\CrackerLoaderREM\REMEmail\rawblob\20060108074908A00010431.doc Page 4 6/12/2006

Action: Diaz to discuss options for pursuing a sourced break-action muzzleloader design. This is a critical juncture for Remington's presence in the black powder market. In-line muzzleloaders are no longer in favor with the consumer. They are perceived as difficult to maintain and use. Either we bring to market a low-cost item, or we will likely exit the category.

MAYFIELD BASED RIFLE PRODUCTS

2004 New Rifle Product - Mayfield

Model 504

OBJECTIVE: New Product

Action: Golemboski to advise of production status.

Model 710 Magnum

OBJECTIVE: New Product

Action: Review status of DAT/T&P and build plan.

C:\Program Files\CDI\CrackerLoaderREM\REMEmail\rawblob\20060108074908A00010431.doc Page 5 6/12/2006
