Greg,

Check Roger, just advise what you all decide on and I'll make it happen.

Regards,

Greg,

Please review the test results. I don't think we fired at all with the safety on. I am 99% sure of this. It was only in the Safety Off position and we aren't going to pass that on the muzzle from 2 feet with a trigger at 6.5lbs!

John - Tim happened to be here at the office today and he and I talked about the FBI rifle trigger pull issue. The contract calls for 3 lb - 4.5 lbs trigger pull with more points being given for the preferred 3.75 lbs. WE BOTH AGREED that it is worth the sacrifice of the bonus points to insure that the trigger does not fire in the drop tests by setting it at 4 - 4.25 lbs. With the fact that the rifle fired on virtually ALL of the muzzle drops on and off safety from 4 ft. We felt it best to play it on the safe side. If you disagree, please talk to Tim and / or call me at home. We can always reach Norm on monday morning if we decide differently.

Norm - unless you hear from John, Tim or I, when you go in to set the trigger pull - set it at 4 - 4.25 lbs.

When you go through the main gate, stay on the road you will be on until you see the highrise dorms. Turn right into the firearms range area and at the T turn Left. Stay on that road a quarter mile until you see the HRT helopad and the fenced in HRT compound. DRIVE THROUGH THE OPEN GATE past the HRT building to the trailer offices at the back. Theresa Powell is in the first one. Her number is 703-632-1640 Lon Horiochi's number is 703-632-1624 Scott Walkers number is 703-632-1805 Call me if you have any questions. Thanks for taking care of this.  
Greg
