**Subject:** FBI Rifle Solicitation

All,

Attached is a summary from my notes laying out the product specifications and requirements for the subject rifle per our meeting today. Again, time is not our friend, especially with a shutdown taking up 2/3 of the time available to submit our samples. Please advise immediately if you see that I have misstated or overlooked any aspect of our discussion. In addition to Ron getting the actions built up and qualified this week, the following needs to happen post haste

1. Stocks – Tom Houghton Jr. should have already contacted Tim or Ron about the stocks. If he hasn't, we need to ride his rear end on it.
2. Scopes – I have ordered 3 scopes from Leupold to arrive to Ron's attention Monday, July 1st. I will follow up Friday
3. Maintenance and parts list – Bob and Tom, we need to establish these parts right away
4. Training aids – Tom, I need what you have before I leave Thursday in order to see what we can do for a classroom type presentation
5. Other ordered components – if your name is associated with a part order item, please get it on order today for arrival Monday/Tuesday next week at latest
6. John – I will need you to go ahead and get Smithson on the page of modifying our M-24 operators manual to suit this rig
7. John – I need a costing high spot and realistic spot estimate in order to set pricing by Tuesday next week.
8. Greg – You and I need to meet Friday or Monday to go over the compilation of the proposal and review areas where additional clarification is needed

Due to the critical nature of this project, I would like a progress update from everyone by noon Friday.

Thanks for your hard work and cooperation today.
