Subject: Rifles w/ISS system

Per Dennis & Todd.

Cannot switch a rifle with the ISS firing pin assembly to firing pin assembly without ISS. This is dangerous due to sear engagement.

If someone calls to order a firing pin assembly for their rifle—try to check & see when their gun was made. If it was made since the year 2000—then it probably came with the ISS firing pin assembly.

Police rifles do not have the ISS system—however there were a few that got out the door with the ISS on them.

Thanks,

Dell Marie Clifton
