

**June 24, 1981**

**TO: J. S. Martin**  
**FROM: F. E. Martin**  
**RE: M-700 Fire Control**

Test results of April 8, 1981 show that the fire control performance is acceptable. I feel more testing is needed to prove conclusively our system is best.

I will order 30 fire controls fabricated and tested. With proper priority this can be completed by October 1, 1981.
