An Important Message: The safe use and care of your new firearm

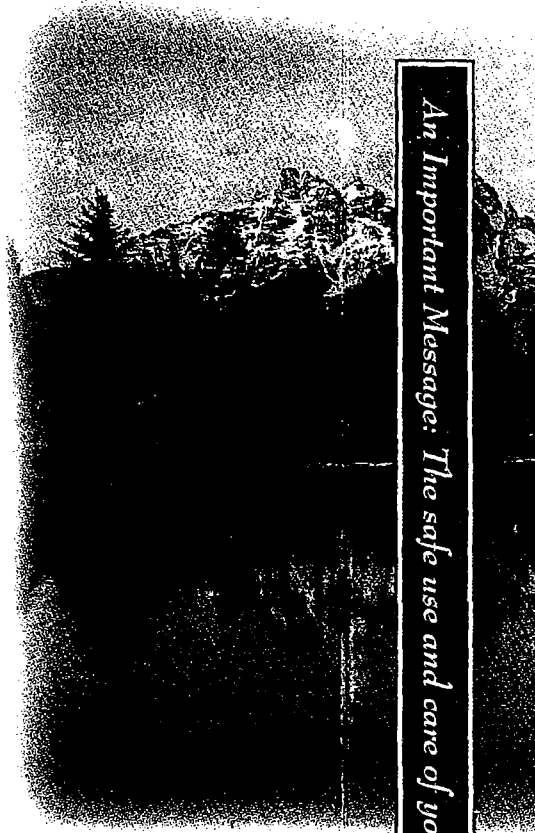

Welcome to "Remington Country," a 200-year-old tradition built on superior firearms and the principles that direct their safe use.

Tommy L. Millner
President and
Chief Operating Officer

Whether you're a veteran shooter or a novice, safety is your first responsibility as the owner of a new gun. This videotape, which

is packaged with all new Remington firearms, reviews the "Ten Commandments" of safe and responsible gun handling and storage. These basic rules are intended to protect you and others around firearms. If you're a new shooter, the tape can guide your initiation to the sport. And if you're an experienced gun owner, you can use it as a refresher on safe shooting practices. Please join us, America's oldest gun maker, in preserving our heritage by accepting the responsibility that governs the right and privilege of gun ownership.
