Subject: Program Goals

Proposed Program Goals

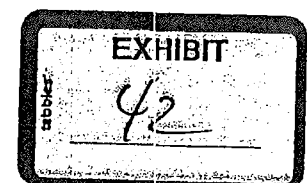

Must Have:

Positive return of the trigger under the sear when the safety is moved from FIRE to SAFE
The safety must not move to the SAFE position if the trigger cannot be returned under the sear
Block both the trigger and the sear in SAFE
Pass all applicable SAAMI tests
Retrofillable

Nice to Have:

Corrosion resistant construction - all versions
No lubrication required
Tamper evident
Try to be part count neutral or less than current design
Better performing or at least performance neutral

Subject to Protective Order - Williams v. Remington

ETE00016924
