RE: YOUR CLIENT - MR. JON NICHOLAS

Dear Mr. Patterson:

Thank you for your letter of November 20, 1989, regarding the subject claim.

In order for Remington to evaluate the cause of this accident, and to investigate whether it may be responsible, we will have to examine the rifle and the fired incident cartridge casing, at our laboratory here in Ilion, NY. I can assure you that no destructive testing will be conducted, and the condition of the exhibits will not be altered. As soon as the examination is completed, the exhibits will be returned, and they will be followed by a written report of our findings.

If this is acceptable, please send the rifle and shell exhibits via UPS, Transportation charges C.O.D. to:
