

I took the Remington 243 in the ~~Forest~~
 Wood on Nov 22-70. I saw a deer
 deer got down to one knee squeeze
 the trigger. it was a hit I thought
 the cage was off because the loud rick
 from my to h. but the island is
 small I didn't want to try to light it
 in for safety reason. So on Nov. 23~~rd~~
 I took my Winchester Model #74.
 I use standard velocity for sparrow and
 I took a hand full of mini mag 22 hollow
 point for any thing else. at six o'clock
 that morning I had fed six squirrels
 I had seen two squirrels going around a
 large pine tree so I was trying to see
 just on inch of it more across and
 up the tree. When out the corner of my
 eye I saw white thing coming. So I turn
 around to look. and that is when I saw
 these two deer. 75 yards away jumping
 up and down shaking their tail. I say
 to them don't go away stay right there
 I took out the standard velocity and put
 in two mini mag 22 rfe hollow point.
 I aim for between the eye but the bullet
 drop in to much it went down. I could get
