MAIN FAULT
 1) Edges of extractor appear to be chipped & shaving brass off edge of case
 2) Cannot duplicate accidental firing complaint - trigger assembly, safety operate properly in every respect.
 Trigger pull 4 3/4 pounds; over-kill 0.12"

PARTS	COMMENTS				
	1) check out extractor for proper operation				
	2) Offer to either return rifle as-is, or, we can install a new trigger assembly at normal cost as a gesture of good-will if that will further restore confidence in the rifle.
