March 5, 1989

Dear Mr. Stekl,

Thank you for your prompt

Reply concerning my Remington,  
6766151, Mod. 700, 7mm concerning

the firing disorder in the  
safety lock & Bolt release at  
inconsistent times & without  
warning. Please refer to my  
letter of Nov. 25 addressed to  
Bridgeport, CT which you received  
January 20 1989.

I am sending you the  
rifle as is uncleaned &  
unchecked as of the last  
misfire of Oct. 12, 88 when  
I released the safety resulting  
in a misfire which tore about  
a one inch gap in my  
thumb.
