Stanton,

RECEIVED  
JAN 03 1964  
ARMS SERVICE

I recently purchased  
two with the same safety that does not  
lock the bolt. I find this feature to be  
superior to the point of not wanting  
to hunt with the rifle. If you have ever  
traveled thru the Alder on Kodiak Is.  
and know the bird catch (to salt, stop  
it open and the cartridge fly out, you  
will appreciate what I'm talking about.

I got quite one it was adopted  
as a customer safety measure, but with  
a Brownie Ben St. Clair Quarter and  
be dangerous to your health if the bolt  
is not in the locked down position.  
The kind of the letter

my rifle is a left hand model 7.  
Please advise as to cost or send C.O.
