Re: Remington Model 700LH
Serial No. A6828535

Dear Mr. Potter:

Thank you for your telephone call and also for forwarding the carton to return the rifle.

Per your request, I enclose copies of (1) my original letter of January 3, 1991; (2) the form letter response dated February 6, 1991; and (3) the envelope bearing a postmark of February 19, 1991. I should note that my original letter was returned undelivered, and I then remailed it to the address provided to me by the NRA.

I believe that my first letter "says it all" except that there was a third occasion (actually the first) when the gun discharged when the safety was released; however, at that time I thought that perhaps I had my index finger on the trigger as I released the safety with my thumb.

I will look forward to hearing from you.

Very truly yours,

A handwritten signature in dark ink, appearing to read 'John L. Geiser', is written over a circular stamp or mark.

John L. Geiser
General Counsel

Enclosure
