14 Hoeffler Ave.
Ilion, New York 13357

Attn: Arms Service Div.

Dear Sirs:

Enclosed please find a customer's Model 700, 22-250 caliber, serial #6605591.

Our customer says that the gun went off on two occasions when he took the safety off to open the gun. On the first occasion he thought perhaps he had bumped the trigger. But the second time it went off, the gun was pointed in the air and his hand was no where near the trigger as he took the safety off and reached for the bolt handle the gun went off.

Our customer states that he has had the gun glass bedded but has never had any work done to the trigger.

The customer is concerned about the safety of this gun. Please make any repairs needed and return as soon as possible.

Sincerely,

GEISER GUNS INC.

Patric C. Geiser
