CUSTOMER'S REQUEST

"in gun is going off while on safety or while being pushed off to fire."

Cannot duplicate complaint. However, I was noted that safety detent retains spring has been bent and safety force is too low. Also, it was noted that the trigger assembly is wet with excessive oil internally. Trigger pull 5 pounds; rear lift .015"

ARTS

Offer new trigger assembly at normal cost, as a gesture of goodwill, based on condition of present assembly.
