Remington Arms Co., Inc.
Arms Service Division
Ilion, NY 13357

Dear Sir:

Enclosed you will find my 30.06 and a box of Remington cartridges. The gun was properly maintained & cleaned throughout the years, however in sighting my gun before deer season I fired two cartridges and the third one debris and powder flew into my face on discharge. Fortunately, I did not receive major injury myself but the gun had the cartridge jammed in it and had to be removed with a rubber mallet.

I do not know what damage occurred to the gun as it smoked for 15-20 seconds after the discharge.

I contacted the dealer where the gun was purchased and he recommended I contact the company explaining the occurrence.

Please have my gun checked out to determine what actually happened and contact me if you have questions.

I will be looking forward to hearing from you in regard to this gun.
