Gentlemen:

I am returning a gun for your examination, Model 700, varmint rifle.

I purchased this gun in Alsip, Illinois in 1987. I purchased it as a used gun. I can,t imagine a gun like this being traded off unless he had problems also. In the past five (5) years the gun has discharged prematurely when the safety was taken off. I would like to have it checked over and repaired if possible as I like to hunt with this gun and varmint season is on now.

Please inform me what can be done to make sure this does not happen again. I would appreciate prompt action.

Yours truly,

Eugene M. Jackson
