

(2)

I have enclosed a copy of the repair orders and the six round of ammo used in the test. I am sending you the 30-06 COD UPS and hope you will give it to the repairman who worked on the 25-06 as he did an excellent job.

As the .222 is used mainly for warm weather shooting, I will not return it, but will clean the bolt myself. Thank you for replacing the weak spring.

I hope that you will personally insure that the 30-06 is repaired and tested prior to returning the rifle to me and please send me a description of the repairs performed.

Sincerely,

A handwritten signature in dark ink, appearing to read "Marv Langohr", is written over the typed name. The signature is fluid and cursive.
