RIF MODEL 700 BDL
COLD WEATHER MISSFIRE

GENTLEMEN:

I OWN 2 700-BDL'S ONE IN 222 REM MAG
SR NO. 193598 AND ONE IN .25-06 SR NO.
6469166. I ALSO PURCHASED ONE FOR MY
BROTHER IN .30-06 SR NO. 6448126

ALL THREE (3) FAIL TO FUNCTION SATISFACTORILY
IN COLD WEATHER - 32° F OR BELOW

THE 222 MAG IS USED PRIMARILY FOR
TARGET WORK AND WARM WEATHER
VEHIT HUNTING AND HAS ONLY FAILED
DURING TARGET PRACTICE. HOWEVER
THE .25-06 COST ME A WHITETAIL
DEER LAST YEAR BY FAILING TO FIRE
AT 10° F.

MY BROTHERS RIFLE HAS ALSO FAILED
SEVERAL TIMES AND IS DISCUSSED IN
A SEPERATE LETTER ATTACHED WHICH
HE GAVE ME TO SEND ALONG WITH
HIS GUN.
