

3/16/94

Mr. Smith,

After calling your Customer Service Department, I am returning for you this 700 series 30-06 caliber I bought last year or the year before. It has fired 2000 rounds which I put the bolt back and when I removed the safety, this is very dangerous. Please fix it if you can or replace it. I have bought Remington guns all my life and this is the first such problem I have had. Thank you.

Respectfully,

Dr. Louis J. Lanunziata
