Dear Sir:

I am writing in regards to a Tmm Express rifle I purchased a short time ago. I need to know if there is any warranty on the workmanship of these weapons. Mine is obviously defective. It has fired while I was attempting to reload it, doing extensive damage to personal property as well as a truck parked nearby. It has fired again as I was getting it out of my truck damaging my truck and gun case that was in the truck seat. I need to know if there is any warranty as I am expected to pay for damages done to the parked truck, as well as replace my property and repair my truck. It is my opinion that the responsibility should lie with the manufacturer, as at no time was my hand near the trigger, so there was no negligence on my part. I also need to know about repair or replacement of the rifle, as I am no longer able to use it without fear of endangering myself as well as others.

Your immediate attention and reply will be greatly appreciated.

Homer D. Payne, Jr.
